

Seller Narrative

This five acre homestead would make a wonderful forever home or weekend get-away. Surrounded by forestland and located at the end of a dead-end road this property offers solitude and privacy. Whether you enjoy watching wildlife or enjoy hunting – or both this site will provide ample opportunities. We have leased the neighboring land for almost a decade and love hearing whippoorwills and woodcock and seeing turkey and deer regularly. We manage the adjacent 155 acres with a conservation mindset and are seeking neighbors who appreciate nature as much as we do. Pond and trail access on the adjacent 155 acres are negotiable. Should you live afar we are open to continuing property management of the lawn and home in a caretaker capacity so you can know your place is safe and ready to use whenever you want to visit. We look forward to meeting you.
